

# Want Me Around

Knuckle Puck

Afraid to call and see what's good  
Or is it simply understood  
There's a reason you don't want me around  
Want me around

When the lake is freezing cold and the city's underground  
Will you feel me like the snow  
Building up without a sound?  
'Til I melt back into view  
A bottle of red and a case of blues  
Can I fall back into you?

You're unfazed by the time we wasted  
Saving face through the postcard on the floor  
'Cause I screwed up like before  
They say that time heals everything  
But what if time is everything?

Afraid to call and see what's good  
Or is it simply understood  
There's a reason you don't want me around  
You play it chay and that's okay  
But I don't buy the whole charade  
Like it's a secret you don't want me around

When the air is filled with smoke  
On the fourth day in July  
Will you watch my heart explode?  
Shed a brilliant disguise  
In a disappearing bloom  
I caught the darker shade of you  
Then you dipped like you always do

You're unfazed by the time we wasted  
Saving face  
Left a postcard on the porch  
'Cause I've grown up a little more  
They say that time heals everything  
But what if time is everything?

Afraid to call and see what's good  
Or is it simply understood  
There's a reason you don't want me around  
You play it chay and that's okay  
But I don't buy the whole charade  
Like it's a secret you don't want me around  
Want me around

I've been awake since five AM  
(Want me around)  
Do you even wonder where I am?  
(Want me around)  
I've been awake and I'll stay awake  
(Want me around)  
(Until you see me again)

So will you call and see what's good

Or is it simply understood  
There's a reason you don't want me around  
You play it chay and that's okay  
But I don't buy the whole charade  
Like it's a secret you don't want me around  
(Want me around)  
Afraid to call and see what's good  
Or is it simply understood  
(Want me around)  
There's a reason you don't want me around  
(Want me around)  
You play it chay and that's okay  
But I don't buy the whole charade  
Want me around  
Like it's a secret you don't want me around
