

# What Took You So Long?

Knuckle Puck

What took you  
What took you  
What took you so long?  
What took you  
What took you  
What took you so long?

In perfect rows, the pink and blue seem so aligned  
Dressed up in prose, the darkest hues quickly ignite  
(As time goes by)  
What you reap, what you sow, will you sink in the undertow?  
(Constant karma)  
Did you get what you had comin' to ya?

What took you  
What took you  
What took you so long?  
What took you  
What took you  
What took you so long?

I'd be the first one to impart  
This life can feel like such a grind  
In my own backyard, in the front of your mind  
Ignoring every single sign

(Flashback)  
When you meant what you said, and you felt what you wrote  
Come alive out there on the road  
Catching heat, let it go  
Nothing good ever comes with your eyes glued down to the phone  
More numb with every other rhyme  
High-strung syncopated lines  
What you were searching for (Searching for)  
Was here the entire time

What took you  
What took you  
What took you so long?  
What took you  
What took you  
What took you so long?

I'd be the first one to impart  
This life can feel like such a grind  
In my own backyard, in the front of your mind  
Ignoring every single sign

What took you  
What took you so long?
