

Checkmate

Knucks

Yo, when I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check

When I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check

Got the game set, gotta check my bredrins
Bro, it's chess not checkers
But these pawns tryna get man pressured (Checkmate)
Aye, me my thoughts and I
My resort through the awkward times
How many times have I fought with pride?
The fights that I've fought from this fort of mine
Phoning phones but who's calling mine?
No ones around for the tears of the clown
But surprised when the jokes ain't fly
Aite, it's cool, its fine
Speak on my mind, leave me mortified
I feel we don't talk as guys
I'll swing that sword when it's war of course
But when rooting the cause of course I lied
Kick in the doors, of course I tried
And if they think they can walk in these trainers they at least gotta make sure they tied
Aye

When I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check

When I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check

Got the game set, gotta check my bredrins

Aye, try pull up my bredrin, call him, text him, get him
I need to talk about this depression, all this pressure I been getting
The victim but I got issues, I miss you, why ain't you checked me?
Ask what I've been into, I'll tell you, hoe, I've been stressing
I been feeling lost with my people gone, fighting demons and beating lots
I cannot lie, me, I'm tired
Tired of suffering in silence, holla at me if you got me
Check for me if you get me, get me, call me

When I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check

When I don't text would you check for me?
Dealing with stress, would you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
When I don't call will you check for me?
Back to the wall, will you check for me?
Is everything bless with me? Check and see
It really wouldn't hurt to check
