

# I Suppose

Knucks

Yo

I said they were comin' from us, but that ain't made no different  
Huh, said they got somethin' for Knucks, but that ain't your ego, is it?  
Yo, thought I was comin' one up, but I got my people clickin'  
Yeah, I can see you're whippin', niggas so ego driven  
But I'm just a real G, I suppose, tell the man put it on me, I suppose  
They envy, I suppose, 'cause they girls get friendly, I suppose  
But I'm just a real G, I suppose, do it all for the family, I suppose  
But we see how it goes, hope I can stop maybe, but I won't

Baby, I'm the G.O.A.T (G.O.A.T.)  
Don't even chat to me 'bout features, G  
Niggas gotta pay me for the quote (What)  
The price of the brick been risin' and shit  
Niggas tryna get a beat for the low  
I find it peak and I don't  
In the kitchen, babe, leave me alone  
I light up a ting and I heat up the stove  
They got all their eggs up in one basket  
Told 'em "Be smart, we ain't equally yoked" (Uh)  
They can't speak to the hoes  
Watch 'em go weak in the knees at "Hello" (Hello)  
They always wanna catch up and reason  
But the peas is the reason I won't  
How you get a lease if you been through the most?  
It beats me, I suppose

I said they were comin' from us, but that ain't made no different  
Said they got somethin' for Knucks, but that ain't your ego, is it?

And I know she see the G in me (In me)  
I sit down, I suppose (I suppose), all alone  
And I know she want a son with me (With me)  
I suppose (I suppose), all alone  
I been tryna make it here so long  
Why the Hell I'm driven like this? (Like this)  
They don't wanna see me win, I suppose  
But no matter I won't quit (Won't quit)

I been goin' through motions  
Tryna make it home  
Through these ups and downs  
Tryna right my wrongs  
I still think about them days, I was losin' hope  
It's levels to success, my nigga, you the G.O.A.T  
Drivin' slow, supercharged Range Rover  
One left, rest is gone, I'ma need some extra, bro  
We've been givin' lessons though, showin' nigga better ways  
Orange juice and Escrows, Benz with the shades closed  
We been on some other shit, get money, I suppose
