See me in the flesh, I bet it's blessed init  
Nodaysoff

Let them know they're dealing with the best, init

Ripping it apart up in her apartment  
Told them we ain't folding, no, and we can't bend

Slam their fork and ask for more like Oliver  
Told her 'You gon' end up in McDonald' uh  
Told her 'You gon' end up where your friends are'  
Baby, I'm as cold as influenza  
Check my friends out to find out what the trends are  
Baby, say your name again, I can't remember  
Oi, did it again, did this shit again  
I set fire to your chick, I've got it lit again  
Vibing then invite her to the crib again  
Shit I wonder what to give, what a predicament
