Player, player
How you letting them play you, player?
Put on a show, you know she's right there
Delete the hoeness like Dreya
Delete the number and stay up
You can't be falling in L-O-V-E
Or whatever you lot call it
Real talk, it can never be me

It cost Ps, it can never be free
The deeds we do for crutches
Man empty they pockets and residencies
In the White House, no presidency
The last I heard they were bredrins but seems now he getting more evidently
He copped jewels tryna get in her jeans
Rude boy you're better than me
I can never give the badders no pasta
Or no lasagna nor carbonara
Couple close calls, indulging with karma
It's calm but I wish learnt the ropes a bit faster
He spent most of his dough on the starter
Folding his arm now he slyly sweating
Now he might have to dial his bredrins
Fuckin direct debits

Player, player
How you letting them play you, player?
Put on a show, you know she's right there
Delete the hoeness like Dreya
Delete the number and stay up
You can't be falling in L-O-V-E
Or whatever you lot call it
Real talk, it can never be me

Yes, aye, look, I done made some plays in the ends on fleek
And girls wanna talk 'bout who's on the road
Baby girl, I can't say that's me
I done shown my bro if you take more time
And delete your chick that's P
Can't be player, little guy, if you're weak
I done stole 4 hearts in the space of a week
And the ends can't talk 'cause I know I'm sweet
Player, coochie slayer
I done gained power like the mayor
Ladies' hands in the air
Mention me in a prayer
Can't be known as a player
You know that I care
Know that I keep it fair
You wanna take it there
Let's take it there
Once we take it there
You got played my player

Player, player
How you letting them play you, player?
Put on a show, you know she's right there

Delete the hoeness like Dreya
Delete the number and stay up
You can't be falling in L-O-V-E
Or whatever you lot call it
Real talk, it can never be me

Aye, falling falling
In the trap of performing for 'em
These man try save 'em and always callin'
I put in that Labour before like Corbyn
Try play man's heart like the keys
Please
You couldn't contort this organ
These yutes try run but I more or less taught 'em
Before you even get up and walk there's crawling
First step is make sure you can afford it
The second is don't stay checkin' you're phone
Stay strong, it's gonna take some endurance
The third is you gotta keep workin' and keep couple birds on reserve for insurance
She came close to the season shortlist
And now we ain't even talk
Took it personally like Jordan

Player, player, player
How you letting them play you, player?
Put on a show, you know she's right there
Delete the hoeness like Dreya
Delete the number and stay up
You can't be falling in L-O-V-E
Or whatever you lot call it
Real talk, it can never be me
