

Lifes been treating me nice
Put a peppermint leaf in my tea with the ice
It's like I need me some legal advise
Cause I came in the game like a thief in the night
If you tryna get a feature of mine
Better get that shit now what a reasonable time
My time ain't stop climbing and neithers my price
Took her out once but I'm jeetin it twice
It was twice that I almost lost
Cost is
Had to took a toll in profit
Fuck it
I do it on my own and buss it
Watch it
Finna make em troll n gossip
How many times was I left outside
Need a heater n a vest outside
You was watchin n hopin I clock it
In the left seat of ya best friends ride

Make a dime on my line das standard
Shorty wanna vibe with the guy das standards
Chattin bare online I can't stand it
Bell up the mandem brushem up standard
I just can't understand it
Silly advise trana lower my standards
Come on baby look at the standard
They can not find this standard

Kinda like my sound I'm grounded
Man are movin wild when they out n it's Childish
The Barrel dats empty will rattle the loudest
Think about it
Soon I'm gonna need an accountant
Know the amounts the amount cause I counted
Ain't no other way that's around it
Shit came that way when I found it
They wanna question my approach
Burn your opinions down to the roach
Bro I was in the shower at home
True say I shoulda met her 2 hours ago
Shorty wanna out me I know
Gettin high when we in take her out on the low
Pull up to the crib get ya out of ya clothes
I can't really say where your trousers will go

Make a dime on my line das standard
Shorty wanna vibe with the guy das standards
Chattin bare online I can't stand it
Bell up the mandem brushem up standard
I just can't understand it
Silly advise trana lower my standards
Come on baby look at the standard
They can not find this standard
