

Lifetime

Kobie Dee

See I done met so many people, but ain't none like you
These other women, shady, I can see right through
And you make me wanna do these little things that I do
'Cause I been looking for this feeling, yeah, I know that it's true
You birthed my son into the world, and I can't thank you enough
I been putting in the work, I'm tryna make it for us
Tryna show you guys the globe, you just give me your trust
And I keep this all in motion like the wheels on the bus
You make the sun feel brighter than it really be
Thankful that you're feeling me
I'm tryna give you better to the best of my ability
With nothing but stability, emotionally and physically
From now into infinity, and that's just how it feel to me
I'm all in, ain't no if's or buts
I'll never try to bring you down I'll only lift you up
You the only person that could ever fill my cup
And pick me up when I feel that I'm stuck (Trust)

Ohh, yeah
I been waiting all my life baby
You're my final ride or die
Ain't nobody gonna slide because I need you
I'm just tryna give love, love, love to you
Show you all the things you showed me, too (Uh)
And it's you and me for a lifetime, a lifetime

See now the family getting bigger like two plus three
I realise this dream is much bigger than me
If you could see the vision in the way that I see
Then you would know the magnitude of our future to be
I'm in the studio just thinking 'bout you
And each of the kids
I wanna thank you for the way that it is
I pour my heart and my soul
And learn from everything that I did
And you can see the blood, sweat, and the tears
See, this is one for the years
A chapter where we look back
Laugh at our mistakes and just be thankful that we did that
Love with no regrets for all the years that we can't get back
And look at what we built, a safe place to raise our kids at
Life ain't always perfect, but I swear it feels close
And right by your side is where I wanna be most
I'm thankful for your love and the way that it shows
And I'm forever grateful for this life that we chose

Ohh, yeah
I been waiting all my life, baby
You're my final ride or die
Ain't nobody gonna slide because I need you
I'm just tryna give love, love, love to you
Show you all the things you showed me too (Uh)
And it's you and me for a lifetime, a lifetime

A lifetime
A lifetime, yeah
And it's you and me for a lifetime, a lifetime

Yeah, heh
