It's a South East demon, motherfucker that's me
Young boy comin' from the SYD
Never gave a fuck what they thought about me
I'ma get it on my own, you just wait and see
'Cause ain't a damn thing changed for the brother, no way
Same old shit just a brand new day
I'ma stay up on my grind till a motherfucker paid
I ain't ever gonna stop till I get it my way
I'ma say what I want, do what I do
Fuck fitting in, I ain't tryna be you
Circle small, only hang with a few
Got a team full of brothers that'll ride for the crew
I'm just tryna make a milly for the mother and the fam
Shits gettin' hard for a young black man
I'm just tryna make a dollar any way that I can
Centerlink don't quite fit the demands
It's a real cold world and a brother gotta eat
Gotta get it for my people, gotta stay up off the street
I'm just tryna stay woke while you motherfuckers sleep
You can either be the wolf or the motherfuckin' sheep
We're just out here tryna make a damn livin'
Gotta be the man to put the food in the kitchen
Mumma gettin' mad 'cause she hate the way I'm livin'
I just focus on my mission, can't nobody me different
I'ma slay my competition, like ya

Right now, right now (Right now)
Right now, right now
I'ma get 'em like ah
Right now, right now (Right now)
Right now, right now

I don't give a fuck what they say about me ('Bout me)
I don't give a fuck what they say about you ('Bout you)
I don't give a fuck right now (Right now)
Right now, right now (Right now)
Right now, right now

People be waiting for shit that I'm making
I tell 'em be patient, got rhymes in the basement
They takin' vacation
But, I just need something for my relaxation
I just need something that's gonna numb most of the pain
Something to help with my brain
Lately I feel I'm insane
Lately I ain't been the same
Lately I drink till I'm drunk
And I stumble down hallways
I brought when he's gone
Dancin' the dice since the day we was born
So I live life to the fullest and some say I'm foolish
But I just say fuck 'em like Vaughan
Coppers stay crooked, the government love it

Work for the law but they think they above it
So I just tell all these pigs they can suck it
They pull out the gun, I'ma get to the duckin'
I'm crazy, fuck it you made me
Mumma complainin' like "Kobie you lazy
Go get a job and stop chasin' these ladies"
I'ma keep rappin' till somebody pays me
I'ma just focus on me and my family
Fuck all the rest 'cause they don't understand me
Rappers be fake they should all win a Grammy
I live for myself, don't let no one command me
I tell 'em right now

Right now, right now (Right now)
Right now, right now
I'ma get 'em like ah
Right now, right now (Right now)
Right now, right now

I don't give a fuck what they say about me ('Bout me)
I don't give a fuck what they say about you ('Bout you)
I don't give a fuck right now (Right now)
Right now, right now (Right now)
Right now, right now
