Can't you see how powerful we are together baby  
I just hope when you're gone your new home is a tombstone  
Hopefully them niggas you fucking with send a bouget

You are cute in the face but you ain't nothing to cuff  
Everything I do is one of one  
Surviving when we killing each other and dying  
And plus I'm too young to die  
Sober taking flights soon I roll over  
Told her baby girl this shoulder not for crying  
Our shooters on the ridge  
Jewelry in the fridge  
Baby, let me hit a glitch  
Oh glitches make me itch  
Now I'm glitchin' and itchin'  
Glitchin' and itchin'  
I'm stacking and sticking  
It's about 5 in the morning  
I'm still sliding and rolling  
I'm still sliding and rolling  
You still sliding and rolling  
You can get as high as you want  
You can die if you want  
Better understand me clearer  
I'm not tryna take it there  
It's a nightmare very scary  
Better protect your mediser  
And the lil baby them came with an nurse  
Hop in the Wraith and skrrt  
Bet you never seen a Maybach hearse  
Bedtime fuckin said bae that hurt  
Mine still rock I daycare  
Man these bitches ain't a thing  
They don't understand me clear  
They don't understand me clear

Hey that gone to register  
You better put your safety first  
Panties, lanties, skaters first  
Codeine sticking like maple syrup  
But my daughter got baby burps

Say my prayer then take a perk  
Hey that gone to register  
You better put your safety first  
Swing this bitch like Katy Perry  
Panties, linens and gator first  
Codeine sticking like maple syrup  
Hey that gone to register  
Oh lil baby them came with nurse  
Hop in the Wraith and skrrt
