

Calculated Steppin

Kodak Black

I was sayin'
I was, I was, I was just tryna see
I was just tryna see how I was gon' play it for the exit
For the walk-out

Fuck you from the back and feel the same way I left it
Celebrity bitches on me, I want the ratchet girl instead
I was parked in Melrose, I was layin' on a bitch
I was just tryna see how I was gon' play it for the exit
I was just tryna see why all my exes stay in Texas
I was just tryna see why they be hatin' on the kid
I been in the Z high, but the zombies on the business
I'm gon' have a relapse when you pull up for to visit
We be jackin' Z5, but ain't really a coalition
I be throwin' the peace sign even though I'ma go to hittin'
Fuck you from the back and feel the same way I left it
I'ma probably speed out in the morning after breakfast
I turn up the volume on you, you ain't sayin' nothin'
I ain't really tryna argue with you 'cause you know you love me
Bae, you got my heart, them other girls just wanna be you
I be prayin' to God like fuck this world, I wanna see you
Always got your back, I love you, baby girl, I got you
Fuck you from the back, you remember I told you I'm behind you
I'm already on voodoo, I go right to left correctly
I don't really care what you do in here long as you respect me
I been on my dick, I ain't even know somebody cared
Niggas been gettin' rich off all the dope that I been sharin'
Niggas steppin' for me that ain't never seen me let 'em
Everybody love me 'cause I always play it fairly
Fuckin' her from the back, I told her stand up in the mirror
Fuckin' her from the back, she say don't go to pullin' hair
Fuckin' her from the back, I told her stand up in the mirror
Fuckin' her from the back, she say don't go to pullin' hair
Calculated steppin', I go to settin' up a play
Calculated steppin', I go to addin' up again
I was just tryna see why you ain't never show your face
I was just tryna see why you ain't pull up like you said
I had lost my mind, I was puttin' them beats before the bread
I was just tryna see why you was playin' with the check
I ain't never really need you even though I was depressed
I was just tryna see if you was gon' stand up for the test
I be really booted up the worst
All my teeth are screwed in and it hurts
Can't stand another shootin', I'm too rich to carry a weapon
No more playin' stupid, they done told me what I'm worth
I was just tryna see if you be pissin' when you squirt, yeah
I'm just tryna see if I can make a billion bucks, yeah
I was just runnin' game, I ain't even know it was gonna work, yeah
I was just tryna see if I can make you fall in love
