

Die Today

Kodak Black

I won't lie, I'm so fly, I can die today
It's alright, please don't cry, just get high with me
One last time
Poppin' on Perkies, nah, I'm ain't perfect, but I'm fine this way
Murder and the burglaries, I'm so fucked up, I was designed this way
But that's my life

I promise I'ma catch my guy
I'ma come through suited up and I'ma smack my fire
Jumped in that fire and I almost died
'Cause my homie got into it, I put my life on the line
But I'd do it again, I just wasn't on my shit that time
I'ma step how I be steppin', I'ma pack that iron
Went on a drill with some niggas, I ain't even know them boys
He say that he gon' die from doin' opioids
They brought him flowers, he made a hellstorm
Maybe goin' to prison'd be better for him
He might get killed out here, we need shelter for him
He on them pills out here, he need shelter for him
You know I like to spin, I'll get your mama harmed
I was your right hand man when you ain't have an arm
But I don't think this street life fair
'Cause the prison and the graveyard only right there

I won't lie, I'm so fly, I can die today
It's alright, please don't cry, just get high with me
One last time
