

Expeditoriously

Kodak Black

True story ain't no lieing
A wise man can play a fool but a fool can't play wise
Unless you judge me by my cover so you can't read between my lines
Straight poet, poetical genius
God made me, believe me
They ain't know that I was intellectual
Tryna change your life but they won't let ya
I'm in Detroit right now
Just hollin' at my nigga Will

I was hollin' at my boy, he said he feel like he gone die soon
Had to pray for him because he need it more than I do
How can I tell my people that's exactly the way that I feel
But I know that I'm blessed so I won't give a bitch that idea
Runnin' from the jakes, I was posted up with a 9 mill
Got me jumpin' gates, I got credit cards in my high heels
All my niggas fake, that shit kept comin' out like diarrhea
Psycho on my line, I'ma pick him up, he in Liberia
Wiz he just whipped up a brick, he ain't put no noodles in it
Told him I just caught me a fish, don't put no tuna in it
They know that I'm baptized in blood, I let my soul sing it
Runnin' round wilidin', I'm childish, I ain't got no home training
Talking to my lil' boy, I promise won't let them boys kill me
Lookin' at my lil' boy like father don't let them boys steal me
Nigga tried to track me, I saw it they said that boy slippin'
Nigga tried to track me, I saw it they said that boy slippin'
Young nigga stickin' to the code, cause I don't condone snitchin'
I ain't goin' out like that rapper, I won't do no tippin'
Went and said my name on the TV, that boy a bold witness
On the news he TIP me, that boy got no feelings
Suwoop put the pole on lil' buddy, they said the Game strippin'
Old heads ain't hittin' on nun, I say them boys kiddin'
I want all the smoke out the stove but I don't even roll Phillies
How the hell you callin' me out when you know I don't listen
How you try and put me in timeout when I ain't Big Boi children
Nigga waitin' on for me to fall off just like that boy Gillie
Said they ride for me till the wheel fall off, I be like oh really
How you tell me what came out my mouth, you don't even know Nipsey
Tiny that bitch ugly as hell, I don't even want Piggy
I can't beat you niggas at talkin' give me a long sentence
You know I keep the pole and I ain't no hoe, I know some Rollin 60's
And I'm thuggin' all on my lonely, but I keep some Zoes with me
How the hell you cancel a nigga and I don't even smoke tobacco
Mute me when I voice my opinion and I ain't even know it mattered
Jump right on my live and record me, everything I say be platinum
Special kind of nigga they know me, they want my name slandered
Special kind of nigga they know me, they want my name slandered
My head right on the swivel, I'm focused they want my brain splattered
How the hell you cancel a nigga and I don't even smoke tobacco
Mute me when I voice my opinion and I ain't even know it mattered
