

# Litty

Kodak Black

I know you feel me 'cause when you with me, we be litty like—  
We be so litty, baby  
Yeah, when you with me, we be so—  
Yeah, when you with me, we be so litty

I know you feel me 'cause when you with me, we so litty like the ice in my cup  
It's been a minute since I got tipsy, but tonight I'm gettin' white-boy drunk  
I'm wasted, I'm wasted  
I was fightin' with my snipes, came in the club, back then, was n't even old enough  
I was cheatin' on her with you, but now it's your turn, you wanna be the only one  
Bitch crazy, this bitch crazy  
I'm crazy, somebody save me  
She crazy, say she wanna murder every bitch that I fucked  
Locked up far away, I wasn't gay, still put everything in my butt  
My OG told me that the niggas who be hatin' on me can't wait 'til I jump  
I ain't even gotta tell my lady, she know to be naked, talkin' 'bout as soon as I come  
And, baby, I don't need your food at night, cutie pie, you be my lunch  
She tasty, she hate me  
That money changed me, how could you blame me?  
Bae, show no weapons, metal detector wherever I'm at, nobody got tools besides us  
All these steppers turned tattletalers, shit get scary, I'm like, "Who can I trust?"  
No one, absolutely no one  
You want the black truck, send her a 4Runner  
You watch your mind, ho, you just my kind, though  
As soon I send a nigga to the moon, I get my honey and I tuck  
I ain't never let you out my cocoon, this that butterfly luck  
I'm on that lean, dancin' on a beanbag, next thing you know and I'm stuck  
Why hide and seek his ass? I'm tryna play freeze tag, I think homicide fun  
Eeny, meeny, miny, moe, that's three digits in a row  
Eeny, meeny, miny, moe, that's three niggas in a row  
Tic, tac, toe, I click that pole  
Tic, tac, toe, I click that pole  
This that yo', bitch, let me get that lo'  
He dead, Simon says, "What he said?"  
I'm swingin' with that stick like recess  
Fucked up in the head, I need meds, R.I.P. to X

My lil' smacker cracker watch his back, he next  
Nike Tech, ski mask, fuck them hoes, we got team back  
I'm like Diddy in my city, think he bad 'til I need ask
