Damn I can't wait till I get me a Bugatti
Damn I can't wait till I get me a Bugatti

What you see is what you get cause I'm from out the projects
Remember sliding in the Yota ducking dodging
Now my cutlass seats so high, don't know how to drive it
I'm a A1 Nissan but I ain't got no license
What you see is what you get cause I'm from out the projects
Remember sliding in the Yota ducking dodging
Now my cutlass seats so high, don't know how to drive it

And my car is so done, you got to push it just to start the shit
Went to school, I jumped the fence
Went to school, I get suspended
Sliding soft, my windows tinted
In a foreign, don't get offended

It ain't personal, it's business
If I said it bitch I meant it
ATV this how I'm living

What you see is what you get cause I'm from out the projects
