

Save You

Kodak Black

Hold me down
Hold me down, hold me down
Just hold me down
Hold me down
Aye, aye, aye-aye-aye
Aye, aye, aye-aye-aye

Hold me down so I can bless you
I'm coming for the rest too
Girl I'll be there to save the day
You know I love to make your day
I'm coming straight to you
I'm on my way to you
I'm running out things to say
But I got some things I wanna do to you

Wanna show you I appreciate you
Tonight I wanna prove to you
I flew to you without my cape
Went out my way to save you
My homies tellin' me don't save that girl
But girl I'm gonna save you
I buy you what you say, ooh
I love you like I made you

I'm scared to show you how I feel
I ain't got no heart, but you the one that make me feel
How you would you take it, if I show you how I feel
It's somethin' bout you, I ain't even know that I could feel
Say you ain't the one, but I'm rocking with you still
Ain't about the sex, girl we could Netflix, we could chill
I'm here to stay, I love you like you my kid
And by the way, I want you to have my kid
My homie told me no, baby girl I'm gonna save her
I think they might be right, I'm just gon' regret it later
Money over bitches, but girl I love you like the paper
Cause when you with me, I don't even want to get no paper

Hold me down so I can bless you
I'm coming for the rest too
Girl I'll be there to save the day
You know I love to make your day
I'm coming straight to you
I'm on my way to you
I'm running out things to say
But I got some things I wanna do to you

I stopped hanging with my homies, ain't listen to 'em
They tried to tell me you wasn't for me, ain't listen to 'em
That you my motherfucking one, you got me whipped
And I done chased you like the month
I like the way you walk, like the way you flip your hair
Too easy to give up wanna show you back here
I'm a treat you like my shooter, me and you girl we're a pair
I'm a treat you like my food, baby I don't wanna share, you
Make me forget that I'm a jit
Cause baby when I'm witcha

I don't even think about the streets
And when I'm witha
I don't even wanna hear no beats
And if you leaving
I don't even know how I'm a breath

Hold me down so I can bless you
I'm coming for the rest too
Girl I'll be there to save the day
You know I love to make your day
I'm coming straight to you
I'm on my way to you
I'm running out things to say
But I got some things I wanna do to you

Wanna show you I appreciate you
Tonight I wanna prove to you
I flew to you without my cape
Went out my way to save you
My homies tellin' me don't save that girl
But girl I'm gonna save you
I buy you what you say, ooh
I love you like I made you
