

# Better Without You

Koe Wetzel

It got cold today  
The sun ain't out, and I think it's about to rain  
Lonely weather has saved me from smilin'  
I don't think I like it, but I'll be okay

I'm doin' better without you  
I'm doin' better without you being around  
Took me 10 years of trying to finally find  
I'm doin' better without you  
Yeah, I'm doin' better without you

Heard you've been talkin' to one of my friends  
I should be mad, but to hell with him  
Been thinkin' of ways to get you back  
But I came to my senses and said "Fuck all that"

I'm doin' better without you  
I'm doin' better without you being around  
Took me 10 years of trying to finally find I'm doin' better without you  
Yeah, I'm doin' better without you

I'm doin' better without you  
I'm doin' better without you  
I'm doin' better without you  
I'm doin' better without you being around  
Took me 10 years of lying and trying to find  
I'm doin' better without you  
Yeah, I'm doin' better without you
