

# Quickie

Koffee Brown

Cha Ching, uh strip  
Ah, ah, ah, Ark!  
Ah, ah, ah, Ark!

Checkin' my one shortie, checkin' my view  
Half past two tell me what we gonna do  
You stalin' me, now I wanna blaze it out  
I wanna see what it's like let me take it down

I wanna dive in your tight thighs, got the right size  
Wanna do things till you frame hit the light  
Slow flow, no clothes, anything goes  
Head to your toes, you know I gotta go

Gotta let me know, tell is it fo'  
Finish up and more and we can hit the floor  
Take it to the back, watch the car we at  
No matter where we at we can make it happen

It's a quickie, two minute on the spot  
It's hot, let me hit it  
In the back of the club in my SUV  
Anywhere you want, ain't nobody gonna see

It's a quickie, pants knees high heels and glue sticky  
Don't worry, 'cause I know you're gonna feel me  
It all will be over in a minute  
It's a quickie, baby

First thing in the day on my lunch break  
We gotta slip away gotta meet some place  
Half on the room, gotta get back soon  
Gotta half an hour but you know what to do

Take me, make me scream your name  
I can take a lil' pain while you do your thang  
Overtime, anytime it really don't matter  
Feelin' for your hit, boy give it to me!

Gotta let me know, tell is it fo'  
Finish up and more and we can hit the floor  
Take it to the back, watch the car we at  
No matter where we at we can make it happen

It's a quickie, two minute on the spot

You me, freak me hit me baby  
Feeny, you feeny me, can I get a quickie?  
Back seat, back street, in the club windows up  
Give it up, what what, you know what a player wants

You me, freak me hit me baby
