

Laws Of Sanity

Koffin Kats

I disappeared tonight
I left you all behind
Somewhere down the road
Erase me from your mind

True it is I have no soul
I don't care about this life
I'm just here killing the time
Tragedies and bullshit trends
I never asked for real friends

Yes I am,
Your monster,
Your villain
Enjoying all of your pain, your torment
Think of me with all your hate
I'm the one who has no shame
Someday you can be like me
Break the laws of sanity

It's further down the road
I can't help what I know
Don't try to understand
You're not part of the plan
