Oh why kid myself?
You know I can't deny you
You were always there
And I was always running
Running closer to the truth
When I thought I was so far away

Hello madness I welcome you coldly
The choice not mine but I will obey
There's so much work to be done
Foundation is strong but surely will crack

I am not you (am not you)
But you live in me (live in me)
Twisting inside (twisting inside)
Until you consume me (consume me)

Fancy footwork high dollar costumes
Sharpest razors money can buy
You won't smile but he'll make you
And I'm so sorry about dinner tonight

I am not you (am not you)
But you live in me (live in me)
Twisting inside (twisting inside)
Until you consume me (consume me)

Oh what have you done?
You know I can't deny you
You always were there
And I guess I'll be taken
And taking the blame
Because I let myself get closer
Closer to you

I am not you (am not you)
But you live in me (live in me)
Twisting inside (twisting inside)
Until you consume me (consume me)

Until you consume me (consume me)
Until you consume me (consume me)
Until you consume me...
