

But You

Kofi

I never knew love till I met you
Trust 'til I met you
Lust 'til I met you, yeah
I never give a fuck 'til I met you (Yeah)
And now I'm fucked cause I met you (Yeah)

I only tell you
Don't hit me up
Cause that makes you smile
I miss your touch
I'm missing you
I'm missing us
My heart is broken
Your words are the knife and my lyrics, the blood
You was depressed
I was your high
I took your palms (Yeah)
I made them mine
I put you first, but you still hurt me
They say this a journey
If this was a journey then I been on roads
I been near mountains and hiking in snow
I been in valleys as low as they goes
Swimming upriver I fucked up the flow
But you fucked with my heart and I fell out of the sky
I got a chute, but I'm wondering why
Don't wanna live, but don't wanna die
She taught me love, but it was a lie
Yeah yeah

I never knew love till I met you
Trust 'til I met you
Lust 'til I met you, yeah
I never give a fuck 'til I met you (Yeah)
And now I'm fucked cause I met you (Yeah)
