

# Diamond

Kofi

I don't really care where you come from  
Cause you don't really know where I been  
All I know is I don't wanna die young

Hey

Been on the road, 40 weekends in a row  
Been out the state, I've been living out a case  
My neck is cold, got a kilogram of gold on me  
My work niggas started feeling like my old homies

I had to cut some niggas off I had to cut ties  
I just dipped my wrist in water, shit got baptized  
I've been living off of fat burgers and fat fries  
And a quarter cup of henny just to act right

And now it's Gucci on my lens  
I can't believe I made it ma I made it out the ends  
I'm an east Toronto baby know I gotta represent  
If you don't know my mama's name then I can not call you my friend  
I'm just trynna vent

I don't really care where you come from  
Cause you don't really know where I been  
All I know is I don't wanna die young  
So I had to get up out the 6  
I was broke now my neck shining  
Turned my shit to Fiji out of flint  
All this pressure turned me to a diamond

I don't need no friends  
I shop at Ssense  
I remember days I couldn't even pay the rent and now I'm swerving in a Benz  
Presidential tints  
Wifey she at home I only see her through the lens  
Babygirl in my defense  
I'm on the move like I'm a dancer  
I'm always in the studio that's why I never answer  
You out in Toronto and I wrote this in Atlanta  
Babygirl I'm yours and you should know I never answer  
No hoes I'm my dms  
Not even the 10's  
You know you're the one I wanna be with in the end  
Girl I know I made you mad cause you've been popping on the gram  
I've been running to the money baby try to understand I love you girl I swear to god

I swear to god  
Swear to god  
Oh baby  
Yeah  
Hey

I don't really care where you come from  
Cause you don't really know where I been  
All I know is I don't wanna die young  
So I had to get up out the 6

I was broke now my neck shining  
Turned my shit to Fiji out of flint  
All this pressure turned me to a diamond

I don't really care where you come from  
Cause you don't really know where I been  
All I know is I don't wanna die young  
So I had to get up out the 6  
I was broke now my neck shining  
Turned my shit to Fiji out of flint  
All this pressure turned me to a diamond
