

She got a vibe like nobody else  
To me she feels the same way too  
Up on my mind ain't nobody else  
I been wasting all my time on you

So let me take you out  
We can take it slow if you want to  
For you girl I got time to lose  
So tell me will you think about it  
Or am I wasting all my time on you

You're the DJ baby you're the DJ this is your show can you just  
put me on  
I wanna be on replay, make you wanna replay you won't never hav  
e to play another song  
Until the party's done you gon' be my girl, and that's why I'll  
be waiting all night long  
Cause you're the DJ baby you're the DJ this is your show can yo  
u just put me on

Look I'll be honest, heart's been numb for a minute  
My life's fun but I know I'd be more fulfilled with you in it  
So much energy between us girl don't say you don't feel it  
Life's a party but I wanna leave with you when it's finished

You know you can trust me cause I'm cool with your momma  
I know you don't give a fuck about no chains or no commas  
That's why I fuck with you, you don't really fuck with no drama  
But I know there's more to you that I don't know  
All I know is

You're the DJ baby you're the DJ this is your show can you just  
put me on  
I wanna be on replay, make you wanna replay you won't never hav  
e to play another song  
And when it's said and done, you gon' be my girl, and that's wh  
y I'll be waiting all night long  
Cause you're the DJ baby you're the DJ this is your show can yo  
u just put me on
