

# Fly With Me

Kofi

Yeah  
Yeah  
Yeah, yeah, yeah  
Yeah, yeah, yeah, yeah, yeah, yeah  
Fly  
Come fly  
Fly  
Shh, yeah

I been going crazy, the streets going crazy, we miss you  
I heard you got a man, and you play no games, girl is that true?  
Unknown number, got six missed calls, girl is that you?  
Girl you're bad, but I'm bad too  
So come fly with me

Look  
Just tell me where you wanna go  
Tell me what you want, I'll get you everything and more, I don't play  
Girl, don't make me have to do this shit alone  
All I ask is please leave your emotions at the door or don't stay  
I know your man can't do this for you, no way  
And ever since you met him you've been showing no face  
One weekend with me would make your problems go away  
Go away, yeah  
Go

I been going crazy, the streets going crazy, we miss you  
I heard you got a man, and you play no games, girl is that true?  
Unknown number, got six missed calls, girl is that you?  
Girl you're bad, but I'm bad too  
So come fly with me

Oh, you bad, but I'm bad too  
Oh, you back, but I'm back too  
I know you mad, but I'm mad cool  
See you in the crowd, it made me proud when you  
Singing every word, dancing with your girls  
Ex twin flame, I love to let it burn  
I love how lessons learn, you iced out my name  
Your feelings got hurt, you never ever learned don't you  
Come back and fly with me, I can have you winning, girl  
I know your potential, girl, I know what you is headed for  
Know that there ain't many of you, I still want get many of you  
Take them panties off and we can share plenty of them

I been going crazy, the streets going crazy, we miss you  
I heard you got a man, and you play no games, girl is that true?  
Unknown number, got six missed calls, girl is that you?  
Girl you're bad, but I'm bad too  
So come fly with me

So come fly with me  
So come fly with me  
So come fly with me  
So come fly with me
