

# Haunt Me

Kofi

But I got an issue  
'Cause I don't see my future 'less it's with you  
Thousand different words to say I miss you  
It breaks my heart that I can't get you back no more

You're living rent-free inside of my head  
I can't get used to this space in my bed  
Guess you could say that I'm lonely  
But my memories with you, they haunt me

Got monsters in my head and freaks in my bed  
Can't fall asleep, I'ma sleep when I'm dead  
Starting to feel like a zombie  
'Cause my memories with you, they haunt me

And I know, I know, I know  
That you're gone but I can't let you go  
Broke your heart but you left with my soul  
You were half of what made me a whole

I know, I know I try  
But I can't get you back in my life  
Don't know why I still see you at night

We done tried too many times  
So hard to get you off my mind, you flood my timeline  
Had to block that bitch, don't hit my line, I might rewind time  
I know my lil' dime fine, plus she on that slime time, yeah, yeah  
She don't like no nigga with no bread, need a check right  
Tell that bitch I only want the head, why you naked?  
That lil' bitch eat on my homie next, he my best man  
All these bitches known to make amends, watch they left hand

Gone  
Since I got my Gs up, I told 'em leave me lone  
I can't trust no skeezer, they all done did me wrong  
Why did I believe her? You know I had to leave her  
Swear all these bitches eaters, you bet' not think she won't

Bad, bad  
I'm tryna backtrack  
Don't want no nat, nat  
Wasting time, you tryna lead me on  
Swear I'm too real for these bitches  
Know you gon' feel if you listen  
Ain't been in my feels in a minute  
Pay no mind, not tryna take to long

You're living rent-free inside of my head  
I can't get used to this space in my bed  
Guess you could say that I'm lonely  
But my memories with you, they haunt me

Got monsters in my head and freaks in my bed  
Can't fall asleep, I'ma sleep when I'm dead  
Starting to feel like a zombie  
'Cause my memories with you, they haunt me

And I know, I know, I know  
That you're gone but I can't let you go  
Broke your heart but you left with my soul  
You were half of what made me a whole

I know, I know, I try  
But I can't get you back in my life  
Don't know why I still see you at night

You're living rent-free inside of my head  
I can't get used to this space in my bed  
Guess you could say that I'm lonely  
But my memories with you, they haunt me

Got monsters in my head and freaks in my bed  
Can't fall asleep, I'ma sleep when I'm dead
