

# Hideaway

Kofi

Work through the night get the vision going  
We been up state way out the north  
Can't fall for it cause I know it's all fake  
No love lost, no love gained

They want to love on me naw naw naw naw  
Don't need me the fake love  
I just been balling the shots shots shots shots  
Not fading away the money my motive not playing it safe  
I been collecting the data for days  
Setting the vision for late late late late  
Blacked out coupe my hideaway

They want to love on me naw naw naw naw  
Don't need me the fake love  
I just been balling the shots shots shots shots  
Not fading away the money my motive not playing it safe  
I been collecting the data for days  
Setting the vision for late late late late  
Blacked out coupe my hideaway

I'm on the way to the stars  
Riding a wraith, riding a wraith  
They would've hated regardless  
I just got paid  
They mad at the money I made  
Go and get you some paper  
Why you being such a hater  
I'm in the city yeah bust down  
I got the vvs on state yeah like  
Blacked out coupe feeling like vader, yeah, vader, yeah  
When I pull there ain't no savior, yeah, no savior, yeah  
I got the sauce for the songs  
She sucks me up like a bong  
In the city full of slums  
In the city with the drums

They want to love on me naw naw naw naw  
Don't need me the fake love  
I just been balling the shots shots shots shots  
Not fading away the money my motive not playing it safe  
I been collecting the data for days  
Setting the vision for late late late late  
Blacked out coupe my hideaway

Blacked out coupe my hideaway  
I hit the gas right ain't no finding me  
Can't let you fuck up my vibe today  
No fuck that I got time today for you  
I spent some time away from you  
I put my pride away for you  
You want a man that would die for you  
But I can not die any day for you okay  
Racks in the safe  
Back in my studio money for make okay  
Everything paid  
Look at my distro one hundred K okay

I been getting lit  
Flew out the country and rack all my chips okay  
I stay out the mix, you stay in your feelings  
They want to love on me naw naw naw naw  
Don't need me the fake love  
I just been balling the shots shots shots shots  
Not fading away the money my motive not playing it safe  
I been collecting the data for days  
Setting the vision for late late late late  
Blacked out coupe my hideaway

They want to love on me naw naw naw naw  
Don't need me the fake love  
I just been balling the shots shots shots shots  
Not fading away the money my motive not playing it safe  
I been collecting the data for days  
Setting the vision for late late late late  
Blacked out coupe my hideaway  
Blacked out coupe my hideaway
