

# Impatient

Kofi

Missing you a little bit more every night  
Missing you a little bit more I won't lie  
So hit me when you get alone babe  
Cause I'm getting lonely tonight

So hit me and keep me up late  
I'm thinking bout running away  
I miss how it feel in your lake  
How long has it been since you came?  
Yeah  
Oh that's a shame  
I feel the regret in your hips  
But you never lied with your lips  
At least not to me

Girl you know I'm  
Impatient  
You know I'm impatient  
Impatient  
You know I'm impatient  
Impatient  
You know I'm impatient  
Impatient  
You know I'm impatient

Why you wanna love me and leave me?  
I've been waiting for you  
I know we're both wrong but it's just how it goes  
You could switch it up and stay here till the morning  
Girl I rock with you you're more than gwaning  
Honestly we both know we got options

But  
You lately  
I've been missing you crazy  
I've always been impatient  
Especially when it comes to you ah  
Especially when I'm next to you and  
Especially when undressing you cause  
Every second dey become slow mo  
My girl don't keep me waiting

So hit me and keep me up late  
I'm thinking bout running away  
I miss how it feel in your lake  
How long has it been since you came?  
Yeah  
Oh that's a shame  
I feel the regret in your hips  
But you never lied with your lips  
At least not to me

Girl you know I'm  
Impatient  
You know I'm impatient  
Impatient  
You know I'm impatient

Impatient  
You know I'm impatient  
Impatient  
You know I'm impatient

(Patience fall on me)  
Impatient  
You know I'm impatient  
(Girl you know I'm)  
Impatient  
Losing my mind girl I'm waiting for you  
I'm waiting but you're testing my patience  
Impatient  
You know I'm impatient
