

# No Face

Kofi

You've been on a wave  
We don't even speak no more  
I've been on the road  
I don't even sleep no more  
I've been chasing bread  
But I don't even eat no more  
You've been trynna talk  
But you ain't hearing me no more

And you won't even tell me about it  
All you talk about is no no no  
Every night you're getting turnt at a party  
All your friends know is go go go go

Baby I don't cry no more  
I ain't even gonna try no more  
I ain't hearing all your lies no more  
And you can't look me in the eyes no more

Yeah yeah

And I know you're worth it  
I know you're worth it  
And I know you're perfect  
I know you're perfect  
But you make me nervous  
You make me nervous  
(You make me nervous)

But baby why you show no face  
Stop talking, just move that waist  
You've been acting hella rude all day  
Around here we don't move that way  
Babygirl why you move so bait  
I've been here why you move so late  
Around here we don't move that way  
Around here we don't move that way

You've been on a wave  
Now we don't even speak no more  
I been on my own  
I don't hear my phone beep no more  
All these thoughts in my head  
But I ain't taking all the heat no more  
I ain't even try to preach no more  
I ain't even trynna preach no more

I been on my own  
I used to chill with my bros  
Now I'm sitting here holding my phone  
(Calling on you)  
Why can't I leave you alone  
Why can't I see you on roads  
Why can't I see that I've grown  
Why can't you see about everything I tried to show, Now I'm doing shows  
I went from blowing my money to having some money to blow

But baby why you show no face  
Stop talking, just move that waist  
You've been acting hella rude all day  
Around here we don't move that way  
Babygirl why you move so bait  
I've been here why you move so late  
Around here we don't move that way  
Around here we don't move that way

But baby why you show no face  
Stop talking, just move that waist  
You've been acting hella rude all day  
Around here we don't move that way  
Babygirl why you move so bait  
I've been here why you move so late  
Around here we don't move that way  
Around here we don't move that way

I remember dipping out the school in the ram, hit the road on E  
I remember whipping down the valley with a baddie going O, OT  
Up on Morningside, looking at the sky by your side that's the old, old me  
Now I'm making music of the pain, turn the love to the do, re, mi

Baby you fucked with me straight from the jump and I'll never forget it  
All of that good shit you talked in the past now I'm trying to forget it  
You out here ducking my calls after all I'm like no bitch forget it  
But you were the first one to fuck with my music and now you regret it

But baby why you show no face  
Stop talking, just move that waist  
You've been acting hella rude all day  
Around here we don't move that way  
Babygirl why you move so bait  
I've been here why you move so late  
Around here we don't move that way  
Around here we don't move that way  
Around here we don't move that way  
Around here we don't move that way
