

Nobody

Kofi

With nobody, but me
Nobody, but we
Yeah

Young and alone
I'm on my own
Used to have you (Used to have you)
I'm on a wave
You on my mind
What do I do
Girl make a decision
Don't remind me what I'm missing
I'm all alone

Why can't you tell this is over (This is over)
Why can't you tell that I've tried (I tried)
I'm about to drown in the ocean (The ocean)
All of these tears that I've cried
And I

I need nobody, but you tonight (Tonight)
With nobody, but me
Nobody, but we (But we)
Yeah, yeah
Nobody, but you tonight

I've been running, days I've been running
You been running games, I've been honest, with you
Way too honest (With you)
Half of the time I wish I never met you
I just remembered the times that you said you needed me
That was the start
You lied your way
Into my heart
Now I'm ashamed
I gave you my all
Said I was yours until death do us part
I was mensch
I was a scrub
I was a fool
Cause I was in love

Why can't I say that we're over (Over)
Why can't I see that I've tried (Tried)
Somethings I just can't get over (Over)
All your deception and lies (Lies)
But still

I need nobody, but you tonight (Tonight)
With nobody, but me
Nobody, but we (But we)
Yeah, it's calm
Nobody, but you tonight

If I told you I love you (Told you I love you)
Would you turn me away (Would you turn me away)
If I told you I need you (Told you I need you)

Would you tell me to stay (Would you tell me to stay)
Would you tell me you want me (Would you tell me you want me)
Would you tell me to go (Would you tell me to go)

But these days girl I just don't know you
I miss when we used to kick it like we supposed to
We you to heat up our ramen noodles and just chill
Oh girl I loved you (Love you)
Oh girl I missed you (ImMiss you)
But if I
But if I told you that I needed you
Just know I wouldn't lie
Would you come and be with me if can't sleep at night
Know you ain't no good for me
No more it still feel right (Feel right)
I guess that's why

I need nobody, but you tonight (Tonight)
With nobody, but me (Nobody, but me)
Nobody, but we (Nobody, but we)
Yeah
