

# On Me

Kofi

Ain't no two ways around it  
You're someone that I used to know  
Like to say that we're done for good this time but who's to know?  
I can't see myself with no one different

When I found myself, I lost you and when you found yourself, I lost you once again  
I loved you from a distance  
Now your somebody different

I watched you change up and I put that on me  
Put that on me  
I should have stayed down and not left you lonely  
Now I'm lonely

Catching a vibe with you  
Wasting my time on you  
Please tell me the deal  
I'll keep it real  
I still got my eyes on you

I don't know what else I can do  
So I wrote a song just to tell you I miss you

But girl you run like Ricky you run run  
East Legon to LA to London  
Won't take time won't wait up for no one  
Your whole vibe is liquor I'm drunk on  
Mind so deep got layers like onions  
And your body's d-d-d-dumb dumb  
So insane  
I don't like to play no games  
Girl you gotta come my way

I watched you change up and I put that on me  
Put that on me  
I should have stayed down and not left you lonely  
Now I'm lonely

And baby  
I know you like to be alone sometimes  
But can you please pick up the phone one time, I'm trynna call you  
I'm like 12 shots deep and  
This JD got the best of me tonight

I don't need to be near you  
I just wanna hear your voice  
Or have you already made the choice  
To cut me out your life and change on me

I watched you change up and I put that on me  
Put that on me  
I should have stayed down and not left you lonely  
Now I'm lonely

I watched you change up and I put that on me  
Put that on me

I should have stayed down and not left you lonely  
Now I'm lonely

Watched you change up and I put that on me  
Put that on me  
I should have stayed down and not left you lonely  
Now I'm lonely
