

Runaway

Kofi

I been loving you for awhile it's been a minute
And I ain't seen you smiling in a minute
If you think I ain't trying baby listen
I would run away with you
Wanna run away with you
Happy to the world but inside girl you're dying
When I tell you that I'm yours you think that I'm lying
I'm yours baby I don't ever wanna see you crying
I would run away with you
Wanna run away with you

Just say the word ay
Just say the word
I would run away with you
Just say the word ay
Just say the word
I would run away
I would run away
I would run away with you

I Wanna run away with you
Just me and my sidekick
You the only one that I live for
You the only one I'd died with
You the only that girl I stand for
And you the only one that I lie with
I know this rap shit piss you off
And you the only one that don't like it
She's like why these hoes in your videos
Just huggin' all of that shit
And you telling me it's just actin' but she loving all of that shit
But there go you
My boo
You know I need you
But you leaving me on the sidelines just watching dreams come true

I been loving you for awhile it's been a minute
And I ain't seen you smiling in a minute
If you think I ain't trying baby listen
I would run away with you
Wanna run away with you
Happy to the world but inside girl you're dying
When I tell you that I'm yours you think that I'm lying
I'm yours baby I don't ever wanna see you crying
I would run away with you
Wanna run away with you

You know I think too much
But you say I'm just scared to love
You know I've always been the type to be
Good on my own
Sometimes I'm scared of my mood swings and my sadness
The past really did the damage
So I am
Scared for you to see me the way I see myself
But I wanna
Runaway with you so it's just you and me

Wanna give you all my time you know who I wanna be
Show you all the things I said no one else could see

I been loving you for awhile it's been a minute
And I ain't seen you smiling in a minute
If you think I ain't trying baby listen
I would run away with you
Wanna run away with you
Happy to the world but inside girl you're dying
When I tell you that I'm yours you think that I'm lying
I'm yours baby I don't ever wanna see you crying
I would run away with you
Wanna run away with you

Just say the word, ay
Just say the word
I would run away with you
Just say the word, ay
Just say the word
I would run away
I would run away
I would run away with you

Just say the word, ay
Just say the word
I would run away with you
Just say the word, ay
Just say the word
I would run away
I would run away
I would run away with you
