

Say I Won't

Kofi

Say I won't
Leave you right now
I don't have time for you hating on me
I got a couple girls waiting on me right now
So say I won't
Say I won't

I wanted
Someone who's loyal and honest
Always pulls through when they promise
But god gave me you

So say I won't
Walk out the door
I built this house that you've been living in
And I shouldn't tear down your walls but say I won't

I won't hesitate
You put me into a petty place
I cut my nose to spite my face but ill do it again

Who gassed your head up this time?
I know that look in your eye
You thought you'd always be mine
But say I won't

Yea

Say I won't
(Say I won't)

I wanted
Someone who's loyal and honest
Always pulls through when they promise
But god gave me you
