

Shut Down

Kofi

She said
She said all your jewelry got me open
And she could turn my bed into an ocean
But I don't mix my henny with emotion
And I won't mix my money with a hoe
I'm too busy caught up in the moment
If I take you out it's a commotion
And Drizzy told me first I guess it's just the motion
You know how it goes

She just wanna glow
Now you want some tickets to my shows
Now you're switching up if I say no
And I got 60 texts up in my phone

But tonight it's getting shut down
Shut down
Yeah my whole crew shut down
When we come through the whole club shut down
Don't ask me for a picture you'll get shut down
Cause I was in the trenches but I'm up now
Up now ya my whole crew up now
They were sleeping on the kid but they up now
Don't ask me bout my chain cause it's a bust down

No I ain't the same if you know me
I've been hanging with the mob like I'm tony
I don't wanna go back to the old me
I was in the trenches by my lonely
A nigga went from winners to brioni
My neck and wrist the furthest thing from cozy
And you know I still got ties with the homies
We was moving product by the OZ
Yeah, we was ruthless
Told a pussy nigga watch they mouth cause I got shooters
I don't fuck with these niggas cause these niggas is clueless
Yeah they see my wave and try to ride it like a school bus
But I've been going ghost
This the shit that make me wish that I was broke again
Back when I was moving on the low key
When they see me they be acting like they know me

But tonight they getting shut down
Shut down
Yeah my whole crew shut down
When we come through the whole club shut down
Don't ask me for a picture you'll get shut down
Cause I was in the trenches but I'm up now
Up now ya my whole crew up now
They were sleeping on the kid but they up now
Don't ask me bout my chain cause it's a bust down
