Tundra Beats
Oh-oh, oh-oh
Yeah, yeah
Ayy, yeah
Wow

Baby, take your time
Slow it down
Let me lift you up
So you can hold me down
Girl, 'cause you are not my type
But I don't care (I don't care)
'Cause I like myself better when you are here
Baby, take your time (Take your time)
Take it slow (Take it slow)
'Cause in a day I might be leavin' on the road (Leavin' on the road)
And I know I act like I don't care (I don't care)
But I like myself better when you are here

Hey, just like Uzi, I thought I could find a better you
I thought lovin' was for dreamers 'til you made it true
Girl, I knew that you could hang, brought you around the crew ('Round the gang)
I remember the first night I took you to the stu' (Wait)
I was crazy when I said that you could be my lady
Really, I was broken up and I just needed savin' (I was lost)
And you the type of girl that would be with me in the basement (In the trap)
So even if a nigga tried, there would be no replacin' you

Baby, take your time
Slow it down
Let me lift you up
So you can hold me down (Yeah)
Girl, 'cause you are not my type
But I don't care (I don't care)
'Cause I like myself better when you are here (Tundra Beats)
Baby, take your time (Yuh)
Take it slow (Take it slow)
'Cause in a day I might be goin' on the road (Goin' on the road)
And I know I act like I don't care (I don't care)
But I like myself better when you are here (What)

You're my main squeeze, you're my girlfriend
You're the light up in this dark that I was born in
Yeah, we fight, but we don't break, but we just bend
One day I'll call you wifey, you call me (Husband)
And you know I'm goin' crazy, crazy 'bout you
Always knew you were my baby, I never doubted you
You keep it a buck, girl, that's why I love you
I never knew trust, but, hell, I trust you

Baby, take your time
Slow it down
Let me lift you up
So you can hold me down (So I can hold me down)
Girl, 'cause you are not my type
But I don't care (I don't care)

'Cause I like myself better when you are here (You are there)
Baby, take your time (Wait)
Take it slow (Take it slow)
'Cause in a day I might be leavin' on the road (Leavin' on the road)
