

There She Goes

Kofi

She's lost but don't wanna be found
I gave her the time and the space
Ego is all crumbling down
Walls caving in all the way
Flip the hourglass, running out of time
But she always wanna buy some more
At what cost?

Fraudulent pieces
Broken hearts bleeding
Honesty leaving
Dishonest reasons
Holding your feet to the fire
Hoping your time don't expire
There she goes
Back from where she came from

I can see it
I can see it in your eyes
Do you mean it?
Or can you tell me it's a lie, girl I feel it to
I'm lost but that's where I found you
So you cut off all your friends
We both say we love each other, at least we pretend
Please, don't be dramatic girl, we both know how this ends now
We both know how this ends

Flip the hourglass, running out of time
But she always wanna find some more

She's lost but don't wanna be found
I gave her the time and the space
Ego is all crumbling down
Walls caving in all the way
Flip the hourglass, running out of time
But she always wanna buy some more

There she goes
Back from where she came from...
