

## Two Two's

Kofi

You want me to be alone with you right now but girl I can't  
Cause I'm posted in the studio  
Girl I gotta stay focused  
This living at the bottom shit is hopeless  
I ain't really got time for love

But two two's  
Nobody loves me like you do  
I ain't got shit if I lose you  
This ain't the shit that I'm used to  
That I'm used to  
Can't fall out of love like I used to  
This ain't the love that I'm used to

Takin' over  
Passion takin' over me  
You're A gift from above, our love is a drug and baby nah sober we  
Cause your body transformer  
Girl you should let me transform you  
Got control of my heart like it's voodoo  
You're a fine piece of art, I can't lose you  
I've been wishing for success, but baby it's for you I pray  
I've been following my dreams but I'm dreaming about you all day  
Cause your body transformer  
Knew from the first time I saw ya  
Honestly I don't got time for you

But two two's  
Nobody loves me like you do  
I ain't got shit if I lose you  
This ain't the shit that I'm used to  
That I'm used to  
Can't fall out of love like I used to  
This ain't the love that I'm used to

Girl you know I'm crazy bout you  
But I'm crazier in general  
My love for you is plentiful  
I should call you fentanyl  
Baby you a trip if you're a snack then you're an edible  
The way u fuck my mind up love I get from you is chemicals  
Loving you is medical  
Knock me out like Demerol  
So bad for each other that it's borderline unethical and  
Imma show I can  
Love you good in the end  
So baby give me your hand  
It's called love
