

# Uninvited

Kofi

Two dry eyes  
Two long beds  
You're all alone but I'm in your head tonight

Three missed calls  
Texts unread  
These things are better left unsaid tonight

Like I want you  
And I need you to want me too

I guess I'm stuck (stuck)  
Stuck on you  
(Stuck on you)

Cause nobody's like  
You you you  
Nobody hits like  
You you you  
Every time it's like  
We break up  
Then we fuck  
Then we through

The worst one for me is  
You you you  
But nobody feels like  
You you you  
Every time it's like  
We break up  
We link up  
Then we

I pull up uninvited  
Just to show you you're mine and  
Whether we fucking or fighting  
I'll have you screaming my name

And you hate that you like it  
But you love when I'm like this  
Whether we fucking or fighting  
I'll have you screaming my name

Oh baby, can you roll one  
I need you to roll one for every time you rolled on me  
Oh baby, can you pour one  
I need you to pour one for every time you said poor me

Girl, I might need you to hold one  
For every time I held on cause you got a hold on me  
Fuck a shot I need a cold one  
I might need a cold one cause you got cold on me

But its always bout  
You you you  
I do anything for  
You you you

Every time it's like  
We break up  
Then we fuck  
Then we cool

The worst one for me is  
You you you  
But nobody feels like  
You you you  
Every time it's like  
We break up  
Then we fuck  
Then we

I pull up uninvited  
Just to show you you're mine and  
Whether we fucking or fighting  
I'll have you screaming my name

And you hate that you like it  
But you love when I'm like this  
Whether we fucking or fighting  
I'll have you screaming my name

I pull up uninvited  
Just to show you you're mine and  
Whether we fucking or fighting  
I'll have you screaming my name

And you hate that you like it  
But you love when I'm like this  
Whether we fucking or fighting  
I'll have you screaming my name
