

# Hours

Kojey Radical

Make it easy for me  
Speechless teachers spoke doubts and reason  
Respect and treason  
I pulled love from a grain of dust and risked it all on a night of lust  
We stopped, our eyes now locked  
You kissed me before I could think of something silly to say  
Lucky you, you slick like new tracks  
Who got you laid?

Lost in how your nature feels  
Well, ain't no average flower, ooh  
You can't dig no deeper here  
I wonder if somebody caught us

I can't help it  
You gone make loose my mind  
Or make me lose my cool  
Way too selfish, I got used to you  
Bringing me flowers  
Got some making up to do  
Baby get comfortable  
'Cause I'ma need a couple of hours  
Baby get comfortable  
'Cause I'ma need a couple of hours

Wonder how your ocean feel  
But you don't wanna trouble the water  
You can see the stars from here  
I wonder if they watching us make love

I can't help it  
You gone make loose my mind  
Or make me lose my cool  
Way too selfish, I got used to you  
Bringing me flowers  
Got some making up to do  
Baby get comfortable  
'Cause I'ma need a couple of hours  
Baby get comfortable  
'Cause I'ma need a couple of hours

I love your company  
Baby come close to me  
You took me by surprise  
Can't usually go this deep  
But you keep it real me  
Like you like similes  
Mirror my symmetry  
We make a symphony  
You never filter me  
Plant me then water me  
You can have all my seed  
Just tell me what you need  
Don't go controlling me  
Scribble you poetry  
Sonnets of solar scenes  
Baby come float with me

Can we switch positions baby  
I got something I wanna show you  
First thing, last thing on my mind  
When I got to sleep  
I just wanna hold you  
For another couple of hours
