

## PROGRESSION FREESTYLE 2

KoJey Radical

Stood still on my lonely, thinking bout composure  
Like how can he hit my email tryna swap work for exposure  
Goodness gracious  
So audacious  
God please give man patience  
Long time since I been on the slave ships  
Everybody wanna talk about-shh  
Lowe it, convo dead now  
I don't wanna hear about top ten nothing. how my name get left out?  
How many times has a man been slept on. Let's put that to bed now  
On the last one I made sure I sealed my pen. I got nothing but lead n  
ow  
Last time they tried to get forward, had to tell my Gs get back  
Four in fore, one in the back  
Look like Bayern on the attack  
Back to the basics, back the the rap  
If that don't work then it's back to the bag  
Sometimes I be feeling like Amy, that's back to the black  
The voice that you hear in your head when you're not giving up, yes I  
am him  
My bro bro come try push me off the edge, but this ain't The Lion Kin  
g  
PTSD from violent things, still got a couple scars that I keep locked  
in  
Back's on the rope can't get boxed in. No multiple choice, don't need  
options  
Why?  
I ain't them, this ain't that  
Once again, that Return of the Mack  
If I burn the bridge then there's no coming back  
I don't slip, don't miss, don't slack  
Don't compare, cause they all mismatch  
I come match fit. Don't miss practice  
I'm from the era, "Chat shit and get banged."  
Cause you could turn the other cheek and get slapped  
This kinda skill, can't give, can't take  
This type of real, can't copy, can't fake  
Made money online, made money offline  
Been here long time. You're just late  
You got cosigns? Can't relate  
You just got here. Slow your pace  
I'm not the one, know your place  
Bar for bar. There's no debate  
Stood still on my lonely, thinking bout progression  
Like how can they call me gifted, if they never really felt my presen  
ce?  
If they never understood my message. Well it's cool now, class in ses  
sion  
Let me script every curse I'm blessed with  
Tried peace but they like aggression  
Everybody wanna talk about numbers. How many wanna talk investments?  
When they really gonna learn their lesson? Rap money don't come with

pensions

Everybody wanna talk impressions, but the catalogue ain't impressive  
And that clout just ain't interesting. You got the crown but the crow  
n came rented

Normal
