

## With U

Kojey Radical

I wonder if you wanna come with me we'll go so far  
You are the only one I wanna bring with me  
And maybe we can swap the concrete for the angel stars  
Because my time will only go and write one way  
London lit with tea lights  
Be mine  
Maybe we can rewind  
These eyes are wide awake  
Tell me what it feels like  
Don't be shy  
Follow me to new heights  
With you I'm always here  
What do I do?  
I want every little second with you  
Cause I don't wanna lose  
Any little second with you  
With you  
With you

(Woah)  
Remember when I had your legs at 9:15  
And did your body stone cold like 3 16's  
The lord, your only surgeon god bless those genes  
Pin you down and get you tailored let me stretch those seams  
If we make love and no one hears it did we really fuck?  
If I can't go a day without you is it really love?  
Said drop the pin she called my bluff and now I'm speed dialing

Red light, Green Light got...

London lit with tea lights  
Be mine  
Maybe we can rewind

The little videos you send me in the meantime  
The only reason I be thinking Demon might be me time  
The only reason I be running minutes on my screen time  
Cool it though-  
1942 I feel like Julio  
Way too fucking drunk to grab the cam but, it's a movie though  
Now we fucking drunk until we sober up or overdose  
Light the world on fire for the ambience. (Hmm)

London lit with tea lights  
Be mine  
Maybe we can rewind  
These eyes are wide awake  
Tell me what it feels like  
Don't be shy  
Follow me to new heights  
With you I'm always here  
(Ooo)  
What do I do?  
I want every little second with you  
Cause I don't wanna lose  
Any little second with you  
With you

With you  
(Hey)  
What do I do?

I want every little second with you (What do I do?)  
Cause I don't wanna lose  
Any little second with you  
With you  
With you  
(Mmm)
