

Ain't The Same

Kojo Funds

We ain't the same, you ain't one of us
I'm from a block when guns we'll buss
We ain't the same, you ain't man enough
I'm from a block when guns we trust
We ain't the same
We ain't the same
We ain't the same
We ain't the same
Yeah, yeah

Weezo
Bitches come and wanna ride me like a speedboat
I got freaky-freaky bitch wanna give me d-trow
Slide on me baby
Slide like a Skee slope
I know you haven't fucked with no Weezo
Freaky bitches wanna slide on me like a speedboat
Slide on me, slide one me like a Skee slope
I know you want it
Baby, baby come and get more
Listen
Never been put under pressure
We squeeze the B out of the press up
Piling 'em slabs on the dress up
Rocky still like Slovakia
Still on my people some extras
Bring me 'em kitties with testers
Top Percil that's clean white
Score points from a brick like it's Tetris
From a boy, I've been the man
All I wanted was 100 grand
Write my paper room in rubber band
Probably got one wrapped 'round my hand
So they know I came to go get it
Alone go get some credit
You call I go to neck
With hold, you get the message

We ain't the same, you ain't one of us
I'm from a block when guns we'll buss
We ain't the same, you ain't man enough
I'm from a block when guns we trust
We ain't the same
We ain't the saaaame
We ain't the saaaame
We ain't the same
Yeah, yeah

Gripping on a nina, Serena look how I serve
I was talking to the piggers, they hate that I fly the birds
Put on a mission, I told her to go berserk
I will never tell a rider to ride if I didn't first
I got niggas doing time
They call off the prison line
So Imma hit them in the lights
I was hidden in the night
We'll recognize real

Jiggas up in O
They say Tricky your flow cold
You know the motion froze
I had kitties that rolled over
Just like the road in Stone
And it started cos they started rolling stones
Never home alone
Probably with a bad b like Brandy
And stories kinda mad cos I was supposed to be with Ashley
Bro I came with my dargg's
Stepping when I march
Told them if you get 'em then you press it, let it bark
And we were in the ends
Before they repped an end
Told them if they start, this is where it ends

9 bills for the dots like the sins getting cheaper
Still I'm aiming high, I'm tryna lock off all the arena's
God knows how many waps that I can buy for the block
But I'm just been and back tryna be a reader
I got shooters that would shoot for me
I'd rather shoot myself
I got youngers that would stab 'em rather poking myself
Forget the fame, this ain't a game
Cah I'll grab, then go on and bang it on dem pricks, it's for the same
We ain't the same bro

We ain't the same, you ain't one of us
I'm from a block when guns we'll buss
We ain't the same, you ain't man enough
I'm from a block when guns we trust
We ain't the same
We ain't the saaaaame
We ain't the saaaaame
We ain't the same
Yeah, yeah
