Hold me, never said you're gonna do that
Move me, never said that you would do that
Now, love me, never said that you would do that
No no no no, babe, look what you do to me, no

Baby, I'm chillin' outside
Baby, come and look into my eyes
Yeah, I know the feelin' is right
Girl, I just need you tonight, need you tonight
Baby girl you're coming around
I know you're staying around
Because you never wanna leave, bombaclart
And when I go in and out and dem-a hearing your sounds
Saying I'm everything you need, oh yeah
You wanna know where we can go
All the way to Fernando
You wanna be my Nintendo
But you gotta know I don't play no games

Everything you say is true
I'd be a mess here without you
And I'll hold you down, you don't need to stress
So let me just lay upon your chest

She makin' me weed check
Grinder check
Rizla check
I got the lighter check
Roll the weed and let me smoke the sess
And you can lay upon my chest
She makin' me weed check
Grinder check
Rizla check
I got the lighter check
Roll the weed and let me smoke the sess
And you can lay upon my chest

Down low, looking like you care what you came for
Tell me what you want, is it me, though?
Love it when you watch how my weed smokes so loud
Feel me? And you best pick it up when I FaceTime
'Cause you know that you're all mine
Know I'ma roll in the car, come wherever you are
Come whenever you need to be together

Everything you say is true
I'd be a mess here without you
And I'll hold you down, you don't need to stress
So let me just lay upon your chest

She makin' me weed check
Grinder check
Rizla check
I got the lighter check
Roll the weed and let me smoke the sess
And you can lay upon my chest
She makin' me weed check

Grinder check

Roll the weed and let me smoke the sess
And you can lay upon my chest yeah

Baby girl, there's something in my ride
Baby, it's my big black 9
Hoping that it don't take your life
Baby, you will feel alright
Listen, baby girl, there's something in my ride
Baby, it's my big black 9
Hoping that it don't take your life
Baby, you will feel alright, feel alright
Yeah, yeah yeah yeah yeah
