

# I Can't Fly

Kolby Cooper

[Verse 1]

I look up at the constellations as I sit here thinkin'  
Of leavin' this world for another place  
Maybe they won't know my name  
And know about me and what I've done  
If I could I'd just run  
But you can't get there by runnin' boy

[Chorus]

But if I could fly  
I'd take off and never turn back  
Just tell everyone I love goodbye  
And if I could soar  
You wouldn't see my face no more  
You could talk your shit and run your mouth  
And I'd never have to find out  
But I can't fly

[Verse 2]

I never thought I could hurt someone as bad as I did you  
You was broke and bleedin', thinkin' you needed me to pull your throu  
gh  
Now I'm jealous of the stars, 'cause they're so far away  
From you, from me, from everybody in this damned old place

[Chorus]

But if I could fly  
I'd take off and never turn back  
Just tell everyone I love goodbye  
And if I could soar  
You wouldn't see my face no more  
You could talk your shit and run your mouth  
And I'd never have to find out  
But I can't fly  
No I can't fly

[Chorus]

But if I could fly  
I'd take off and never turn back  
Just tell everyone I love goodbye  
And if I could soar  
You wouldn't see my face no more  
You could talk your shit and run your mouth  
And I'd never have to find out  
But I can't fly  
No I can't fly
