

Kill Me

Kolby Cooper

There's a wildfire on top of this hill
I don't know, I'm climbing still
The burning is giving me chills
I crave it
I crave your body's beautiful drug
Bringing me down and picking me up
I breathe you into my lungs
You kill me, you kill me

I'm weak on my feet
This mountain is steep
But it's a hell of a high
Most highs ain't worth the lows
But baby you should know
That yours is every time

There's a wildfire on top of this hill
I don't know, I'm climbing still
The burning is giving me chills
I crave it
I crave your body's beautiful drug
Bringing me down and picking me up
I breathe you into my lungs
You kill me, you kill me

You kill me

The sting of your flame is a perfect pain
So send me up in smoke
Slow is just how I burn and I guess it's how I learn
'Cause I'll always come back for more

There's a wildfire on top of this hill
I don't know, I'm climbing still
The burning is giving me chills
I crave it
I crave your body's beautiful drug
Bringing me down and picking me up
I breathe you into my lungs
You kill me, you kill me

You kill me

There's a wildfire on top of this hill
I don't know, I'm climbing still
The burning is giving me chills
I crave it
I crave your body's beautiful drug
Bringing me down and picking me up
I breathe you into my lungs
You kill me, you kill me

You kill me
