

## Last Goodbye

Kolby Cooper

I don't know why I always fall for you  
And all those twisted little games you play  
Starin' down from your high horse  
Like some mystical kind of saint  
We're always tellin' one another  
Sometimes people can really change  
But the truth is we're not right together  
So it's time we went our separate ways

I need to let go, I need a change  
From this toxic thing that we call love  
It's takin' its toll on me  
Well I gotta run, cuttin all my ties  
Girl ready or not here it comes  
My last goodbye

Maybe I'll down this fifth of whiskey  
Nothin' burns like a double crown  
Everyone's seen me like this before  
This time your memory's goin' down

I need to let go, I need a change  
From this toxic thing that we call love  
It's takin' its toll on me  
Well I gotta run, cuttin all my ties  
Girl ready or not here it comes  
My last goodbye

Well I need to let go, I need a change  
From this toxic thing that we call love  
It's takin' its toll on me  
Well I gotta run, cuttin all my ties  
Girl ready or not here it comes  
Ready or not here it comes  
Ready or not here it comes  
My last goodbye
