

Under My Skin

Kolby Cooper

Break my heart all over again
Get back in my arms, get under my skin

You've always been the best at
Bringing out the worst in me
The devil on my shoulder
Craves your sweet misery

Do I want you right now? Baby girl, you're damn right
There's a key underneath the stairs
You can let yourself in, come and ruin my night
Make it hurt, baby, I don't care

Break my heart all over again
Get back in my arms, get under my skin
Wake me up round 2 AM
Get outta that bar, get into my bed
I think the crazy you make me could fix the missing you
Don't leave me wasting my whiskey, sitting here, wishing you'd
Break my heart all over again
Get back in my arms, get under my skin
(Get back in my arms, get under my skin)

We mix like oil and water
But we've got chemistry
We know we got no future
Let's just relive history

Break my heart all over again
Get back in my arms, get under my skin
Wake me up round 2 AM
Get outta that bar, get into my bed
I think the crazy you make me could fix the missing you
Don't leave me wasting my whiskey, sitting here, wishing you'd
Break my heart all over again
Get back in my arms, get under my skin

Do I want you right now? Baby girl, you're damn right
There's a key underneath the stairs
You can let yourself in, come and ruin my night
Make it hurt, baby, I don't care

Break my heart all over again
Get back in my arms, get under my skin
Wake me up round 2 AM
Get outta that bar, get into my bed
I think the crazy you make me could fix the missing you
Don't leave me wasting my whiskey, sitting here, wishing you'd
Break my heart all over again
Get back in my arms, get under my skin
