

## You Don't Know Me (F.S.T)

Kolby Cooper

Oh hell yeah

Yeah you don't know shit and you don't know me  
I don't know who you think you are talkin' down at me  
In a place like this to rhyme is just a game  
Yeah this whole town's a joke and helpless all the same

Yeah so watch your back and watch your pride  
Watch the people just passin' by  
'Cause they'll run their mouth and then they'll run and hide  
But they'll call you their best friend on the day that you die

Everybody knows you, that's just the way it is  
But I guess that they don't know what goes around comes back in  
the end  
Yeah they know it all, and a little more  
Tell you shit about yourself that you never knew before

Yeah so watch your back and watch your pride  
Watch the people just passin' by  
'Cause they'll run their mouth and then they'll run and hide  
But they'll call you their best friend on the day that you die  
Yeah they will

Yeah so watch your back and watch your pride  
Watch the people just passin' by  
'Cause they'll run their mouth and then they'll run and hide  
But they'll call you their best friend the day that you die

Yeah you're their best friend on the day that you die  
Wanna be your best friend on the day that you  
The day you die
