

Catching Lightning

Kolohe Kai

I was patiently waiting but things have fallen through
Yeah good things will find you when you don't expect it to
I was waitin' my whole life and it finally came true
'Cause I didn't give up and I finally got one

We're cruisin' through the islands, girl you on my right
The ocean horizon and you my paradise
Oh, lady it's crazy how things are all so pretty
And we're finally here

And look at all these mountains we've climbed
Just to find it in this sunrise
Yeah, we almost gave up at times
It's all about the timin'
Now we're catchin' lightnin'

What an epic freedom we feel
Once in a lifetime, so real
Won't you keep that clock standing still
It's all about the timing
Now we're catching lightning, oh
Yeah
It's all about the timing
Now we're catching lightning

And timing is like tick-tock on the clock
Oh, you took my heart in one look girl
But my head was in the clouds
But you brought me down, yes, down to earth
Back in 2019
We had those memories, memories, memories, memories
We were catching lightning
And it was legend, legend, legendary

And look at all these mountains we've climbed
Just to find an endless sunrise
Yeah, we almost gave up at times
It's all about the timin'
Now we're catchin' lightnin'

What an epic freedom we feel
Once in a lifetime, so real
Won't you keep that clock standing still
It's all about the timing
Now we're catching lightning, oh
Yeah
It's all about the timing
Now we're catching lightning

Now we're catching lightning

I was patiently waiting but things have fallen through
Yeah good things will find you when you don't expect it to
I was waitin' my whole life and I finally found
I finally found you, yeah

It's all about the timin'

Now we're catchin' lightnin'
It's all about the timin'
Now we're catchin' lightnin'
