

Charades

Kolohe Kai

Oh na na na, na na na, yeah
Ooh, yeah
Uh-huh

We kept up this game of charades
Seen a lotta love, seen a lotta heart breakin'
We kept up this game of charades
When will we be on the same page

Ooh

We fell into love
In the coldest of summers
How would I know
You'd be the one to steal all my slumbers
You zig when I zag
When you holding me under
Then you set my sail
Showed me the world and all of its wonders

It's hard to figure out
Was this the love they talked about?
What did that kiss even mean
Tell me, tell me before I drown in this sea of love

We kept up this game of charades
Seen a lotta love, seen a lotta heart breakin'
We kept up this game of charades
When will we be on the same page

And I can't deny our chemistry
But it's hard to fly when we can't see
We kept up this game of charades
When will we be on the same page

Our hands touch but it feels so strange (feels so strange)
When our hugs used to last for days
Am I a fool, for thinking this was everything I've dreamed of
When everything screamed love

It's just hard to figure out
Was this the romance they talked about?
What did that look even mean
Tell me, tell me before I drown in this sea of love

Kept up this game of charades
Seen a lot of love, seen a lot of heart breakin'
We kept up this game of charades
When will we be on the same page

And I can't deny our chemistry
But it's hard to fly when we can't see
We kept up this game of charades
When will we be on the same page
