

# Gravity

Kolohe Kai

I looked around and I found  
A beautiful scene ahead  
Like a place made up in movies  
It's such a paradise  
To me  
As my feet hit the water  
Summer's getting hotter  
I'm loving where I stand  
'Cause it's the cool me down sensation  
Turning my days into vacations

The sun, shining bright on my face (ooh, ooh)  
Tells me everything is okay

And I'm like, whoa  
Feeling the nice breeze, whoa  
It's a rhythm that revives me  
I can't think of one other place to spend my waves  
Cause this island life defies  
Gravity, gravity  
Gravity  
Yes this island life defies  
Gravity, gravity  
Gravity

Oh how I see all the wave lines  
A rolling in about a head high  
Feels so good to be all right here  
Yeah where the air is clear  
Oh yes, I  
I see the crystal reflection of the sky  
It's such a glassy, goofy foot ride  
And how I'm feeling on the inside  
It pulls me into motion

The sun, shining bright on my face  
Tells me, that everything's okay

And I'm like, whoa  
Feeling the nice breeze, whoa  
It's a rhythm that revives me  
I can't think of one other place to spend my waves  
'Cause this island life defies  
Gravity, gravity  
Gravity  
Yes this island life defies  
Gravity, gravity  
Gravity

Whoa, yeah  
Whoa, yeah  
Whoa  
Feeling that nice breeze, whoa  
It's a rhythm that revives me  
I can't think of one other place to spend my waves  
'Cause this island life defies

Feeling that nice breeze  
It's a rhythm that revives me, whoa  
Never think of a place to spend my waves  
'Cause this island life defies  
Gravity, gravity  
Gravity  
Cause this island life defies  
Gravity, gravity  
Gravity
